

Clinical Ethics Fellowship Program Standards

1. All Fellows have a terminal degree in a field acknowledged as an accepted discipline that contributes to clinical ethics
2. All Fellows receive training or grounding in the American Society for Bioethics and Humanities (ASBH) *Core Competencies for Healthcare Ethics Consultation*, 2nd ed. (2011) sufficient to function as an individual or single or lead clinical ethics consultant independently
3. The Fellowship Program is at least 11 months full-time or the equivalent
4. All Fellows receive direct supervision and mentorship for the duration of their training
5. All Fellows serve as the lead consultant for at least 30 clinical ethics consultation cases
6. All Fellows are periodically assessed and evaluated for meeting the skills and knowledge necessary to carry out consultations in accord with the ASBH core competencies
